

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Economics	
Code: KM/ SPOMdb/ODP/17	Name: Internship
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: 40 For the study period: 520 Methods of study: present	
Number of credits: 20	
Recommended semester/trimester of study: 7.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject:	
Results of education: The education system includes 2 types of internships - 3 weeks (15 days) of summer farm and company practice after the 4th semester. The students of the study program take part in a 3-week agricultural practice. - The aim of the 13-week (65 days, 520 hours) corporational and commercial practice is to apply the acquired theoretical and practical knowledge. Equally important is to participate in problem solving and to gain practical experience within the choosen profession.	
Brief syllabus:	
Literature:	
Language, knowledge of which is necessary to complete a course: hungarian language	
Notes: Organized by partner university	
Evaluation of subjects Total number of evaluated students: 0

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Economics	
Code: KMI/ SPRVdb/AST/16	Name: Aplikovaná štatistika
Types, range and methods of educational activities: Form of study: Lecture / Seminar Recommended extent of course (in hours): Per week: 1 / 2 For the study period: 13 / 26 Methods of study: present	
Number of credits: 3	
Recommended semester/trimester of study: 2.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject: The course is finished by a written exam. For assessment A should be obtained at least 90 points, for assessment B at least 80 points, for assessment C at least 70 points, for assessment D at least 60 points, for assessment E at least 50 points.	
Results of education: The Applied Statistics course provides basic theoretical and practical knowledge of statistical methods. Students acquire knowledge in processing statistical data, in computation of descriptive characteristics, and acquires basic methods of inductive statistics. Upon successful completion of the course the student is able to apply statistical methods in professional practice.	
Brief syllabus: 1. Basic concepts of descriptive statistics. Statistical characteristics. Graphical display of data. 2. Measures of central tendency and variability and applications. 3. Examining a heterogeneous set of data. 4. Relative numbers and indexes. Value index, volume index and their properties. 5. Basic concepts of inductive statistics. Random sampling. Sampling methods. 6. Point estimation, basic properties of estimators. Interval estimations. Confidence interval for the mean, variance, ratio. 7. Basic concepts of hypothesis testing. 8. Hypothesis testing of parameters: mean, variance, ratio. 9. ANOVA, chi-square test 10. Dependence of two statistical features, contingency, association. Contingency and association coefficients. 11. Regression analysis. 12. Non-linear regression models. Multicorrelation. 13. Time series analysis.

Name of the university: J. Selye University	
Name of the faculty: Faculty of Economics	
Code: KM/SPRVdb/ BPZK/17	Name: The food safety and quality assurance
Types, range and methods of educational activities: Form of study: Lecture Recommended extent of course (in hours): Per week: 2 For the study period: 26 Methods of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 3.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject: Oral exam. To obtain grade „A“ students have to obtain minimum 90% of the total score, to obtain grade „B“ students have to obtain 80% of the total score, to obtain grade „C“ students have to obtain 70% of the total score, to obtain grade „D“ students have to obtain 60% of the total score, to obtain grade „E“ students have to obtain 50% of the total score.	
Results of education: During the course the students will get acquainted with the basic concepts, methods and systems of food and feed safety, quality management as well as with the requirements of the customers and with the requirements of the legislation in order to acquire and apply in practice during the successful entrepreneurship, in deciding, prioritizing and choosing options to the full satisfaction of our customers. They will be familiar with preventive methods and systems to prevent contamination of food and feed materials during production and harvesting in line with customer requirements and current EU food and hygiene requirements for primary production.	
Brief syllabus: 1. Basic concepts of food safety and quality management. 2. Basic principles of EU food safety management, regulatory requirements, quality regulations. 3. Basics of Food Safety in Food Preparation, Good Hygiene Practice (GHP), HACCP. 4. Quality management systems - ISO 9001: 2015 standard. 5. Traceability, control of suppliers. 6. Evaluation methods, requirements for retail network suppliers and food safety system standards (BRC, EFSIS, IFS, ISO 22000). 7. Quality related expenses. 8. Methods of problem solving, decision making and quality improvement. 9. EU requirements, self-monitoring and good agricultural practice guidelines (GAP). 10. Type and sources of pollution; methods of prevention in crop production; methods of prevention in animal production. 11. Traceability requirements in agriculture and branded products. 12. Application of HACCP in agriculture. 13. Food safety certification systems in agriculture; added value and economy.

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Economics	
Code: KEK/ SPRVdb/FIN/17	Name: Finančníctvo
Types, range and methods of educational activities: Form of study: Lecture / Seminar Recommended extent of course (in hours): Per week: 2 / 1 For the study period: 26 / 13 Methods of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 3.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject: At the end of the semester, written exam for 100 points. To obtain grade „A“ students have to obtain minimum 90 points, to obtain grade „B“ students have to obtain 80 points, to obtain grade „C“ students have to obtain 70 points, to obtain grade „D“ students have to obtain 60 points, to obtain grade „E“ students have to obtain 50 points. There is no credit for the course if a student obtains less than 50 points.	
Results of education: The aim of the course is to summarize and present basic financial knowledge (historical development of money, process of making money, technical forms, flow of money in the economy). The course deals with funding opportunities, with the financial market, its institutions and with the financial market players. It discusses the financial area of state functioning and international financial institutions. The student will have the following competencies: a macroeconomic background overview, an overview of the functioning of financial institutions, an overview of the functioning of financial systems, an overview of the tax system and public finances.	
Brief syllabus: 1. Money history, basic concepts, definitions, types of money 2. Money generation mechanism, demand and supply of money, financial intermediation system 3. Inflation 4. Banking system, banking operations 5. State finances I. (the role and systems of the state, local government, non-profit sector) 6. State finances II. (State Budget) 7. International Financial System I. - Historical Development, EU Fiscal and Monetary Policy 8. International Financial System II. - International Financial Institutions 9. Financial Markets - Characteristics, Basic Knowledge, Stock Exchange, Markets and Interconnections, 10. Securities I. - types, characteristics, valuation of Financial Products 11. Securities II. - types, characteristics, valuation of financial products 12. Foreign exchange market 13. Derivatives market

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Economics	
Code: KMI/ SPRVdb/HM/16	Name: Hospodárska matematika
Types, range and methods of educational activities: Form of study: Lecture / Seminar Recommended extent of course (in hours): Per week: 1 / 2 For the study period: 13 / 26 Methods of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 1.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject: During the semester will be held two written tests by 35 points and for the active work of student in WebWork-system can the student obtain 30 points. Of the total of 100 points it is needed to obtain at least 90 points on the valuation A, for grade B is necessary to obtain 80 points, for grade C at least 70 points, for grade D at least 60 points and for grade E at least 50 points. If this condition is not met, a written test will be given in the exam period to obtain max. 70 points. Points earned in WeBWoRK will be counted in the overall rating.	
Results of education: After successfully completing the subject, the student learns the basics of mathematical analysis. Students know the basic properties of functions and can apply their knowledge in solving tasks. The student also knows the basic concepts of linear algebra and he is able to apply the basic methods of linear algebra in solving practical problems. In addition, the student acquires basic knowledge from theory of probability.	
Brief syllabus: <ol style="list-style-type: none">1. Real and complex numbers.2. Definiton of function.3. Elementary functions and basic properties.4. Vector space. Vector operations.5. Matrices, operations with matrices.6. Determinant, basic features and applications.7. Solving homogeneous and inhomogeneous systems of linear equations.8. Combinatorics9. Probability. Classical, geometric and axiomatic definition of probability.10. Random event. Random variable.11. Probability distributions, properties.12. Discrete and continuous distributions.13. Mean and variance.

Name of the university: J. Selye University	
Name of the faculty: Faculty of Economics	
Code: KEK/ SPRVdb/MRK/17	Name: Marketing
Types, range and methods of educational activities: Form of study: Lecture Recommended extent of course (in hours): Per week: 2 For the study period: 26 Methods of study: present	
Number of credits: 4	
Recommended semester/trimester of study: 2.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject: Successful completion of the final written test at the end of the semester. To obtain evaluation A is necessary at least 90% of the maximum score of the final review, to obtain evaluation B at least 80%, for the assessment of at least 70% C, D for the assessment of at least 60%, and the evaluation E at least 50% of the maximum points. Credit won't be granted to a student who did not receive at least 50% of the maximum of score on the written test.	
Results of education: The objective of the subject is to give a knowledge about the basic concepts of the marketing and marketing management for the students. Ability to analyze the marketing components and trends of the market, market processes. Understand the context of market competition, market competition tools, and marketing mix elements.	
Brief syllabus: 1. The basic concept, context and trends of agri-food trade. 2. Factors influencing food consumer and customer behavior. 3. Types of major organizational markets, factors of purchasing behavior in organizational markets. 4. Marketing Research, Context of Market Competitive Structure, Competitive Advantage and the basics of competitiveness, the methods of analyzing the behavior of competitors. 5. Segmentation of consumer and organizational markets, selection of target markets, products, Positioning. 6. Marketing Mix Elements: Product I. Product Development 7. Product II. Product life curves, branding, quality and packaging 8. Price policy 9. Sales channel, price and contract terms 10. Marketing Communications I. Advertising 11. Marketing Communications II. Sales promotion, personal sales, PR 12. The basics of marketing planning 13 Marketing in organizatiós
