INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ CZA/15	Name: Foreign language - english language
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 2	
Recommended semester/trimester of study: 4., 6.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: : During the semester, students have to hand in a seminar work, for which they can get 50 points. In addition, students have to teach 2 lessons of English aimed for the primary classroom, one teaching a certain grammar item, another one teaching a certain vocabulary area. For each presented lesson/micro-teaching students can gain 25 points, i.e. 50 points altogether. In order to gain evaluation A it is necessary to collect at least 90 points, for B 80 points, for C 70 points, for D 60 points, for E 50 points. Students who fail to reach at least 50 points will not be given any credits.	
Results of education: By the end of the course a successful student will be able to teach English at the first level of primary school education. A successful student will be able to use the techniques and methods of teaching English as a foreign language in the primary classroom.	
Brief syllabus: During the course students will be provided with the theory and practice of using the techniques and methods of teaching English in the primary classroom. Special attention will be paid to teaching language in a playful way – several games and activities will be presented for teaching vocabulary (basic topics include: Colours, Family, Animals, Vehicles) and teaching grammar.

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ HVA6/15	Name: Didaktika hudobnej výchovy v primárnom vzdelávaní
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 2	
Recommended semester/trimester of study: 1.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: Students has to provide 1 written semestral work for 50 points. Another 50 points could be earned by passing the written (25 points) and oral (25 points) exam, so 100 points could be earned during a term in total. A mark 100-90%, B mark 89-80%, C mark 79-70%, D mark 69-60%, E mark 59-50%, FX mark in case that less then 50% of the points were earned during a term.	
Results of education: The student has an overview of current programs, plans and curriculum, is able to draw up an annual plan and prepare for the lesson. Graduate knows the actual musical instruments and equipment and is able to apply playful methods in their teaching process.	
Brief syllabus: 1. Methodology of music education, current plans and programs ISCED 1 - Musical ability, musical feeling, musical talent. 2. Current tools (books, exercise books, worksheets) for primary schools to teach. Materials, musical instruments and equipment for music education 3. History and development of the methodology of music education. Foundations and structure of Kodály concept. 4. New alternative methods in teaching at music education. (group projects) 5. New alternative methods in teaching at music education. (group projects) 6. The forms and methods of teaching children songs. 7. Developing the skills and abilities at the primary level schools. (rhythmic, vocal, movement, perception, improvisation or writing and reading score system) 8. Preparing children for listening to music. Choice of musical material. 9. Scheduling: elaboration of annual thematic plan. 10. Planning: teaching units, teaching materials division. Preparing for one lesson hour. 11. Playful techniques, music games in music education. 12. The work of teachers in the school and outside the school environment. 13. Analysis hours or part hours HV

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ MAT6/15	Name: Teaching of Mathematics
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 3	
Recommended semester/trimester of study: 1.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: For the successful passing this course it is necessary to complete during the semester a written clearance by 30 points, and at the end of the semester a final written clearance with an oral examination. During the semester can be obtained 10 points for drawing up individual assignments, for passing the final written and oral exam 30+30 points. To obtain grade A it is necessary to get at least 91 points, for grade B to get at least 81 points, for grade C is necessary to score at least 71 points, for grade D to get at least 61 points and for grade E to get at least 51 points. Credits will not be awarded to the student who obtained less than 15 points in any written clearance or in oral exam.	
Results of education: The student learns different methods of introducing and developing the concept of the number and numerical operations, can apply methods of presenting and modeling basic mathematical operations. He learns the principles of the algorithms of operations, and strategies of solving mathematical problems. The student can plan and manage lessons so that discovery, introduction and development of mathematical concepts will be constructivist, and is able to develop the ability of pupils to solve real problems	
Brief syllabus: The process of creating the concept of natural number in the primary school. Ordinal and cardinal number. The decimal positional system. Objectives and stages of numeracy. Basic mathematical operations (addition, subtraction, multiplication, division), the introduction of operations, modeling and presenting operations. Counting algorithms, outcome estimate. The concept of fraction, introduction, basic models of fractions, comparison of fractions. Word problems in the first grade of primary school, divergent roles

During the semester can be obtained 10 points for drawing up individual assignments, for passing the final written and oral exam 30+30 points. To obtain grade A it is necessary to get altogether at least 91 points, for grade B to get at least 81 points, for grade C it is necessary to score at least 71 points, for grade D to get at least 61 points and for grade E to get at least 51 points. Credits will not be awarded to the student who obtained less than 15 points in any written clearance or in oral exam.	
Results of education: The student learns different methods of introducing and developing basic terms and concepts of geometry at first grade of Basic School. The student can apply methods of representation and modeling of the plane figures, recognize methods conducive to the development of spatial imagination. The student can plan and manage teaching lessons focused on handling the devices, confidently learns the basic axioms of geometry.	
Brief syllabus: The concepts of school geometry. The line and its parts, the plane and its parts. Orientation in the plane. Triangles and rectangles in the curriculum of the first grade of Basic school. Folding plane figures. Methods of introducing the concept of circle. The plane angle. Simple construction in the plane. Solids in primary mathematics. Representation of solids. Development of spatial imagination and spatial orientation. Using Educational Software. Measurement in the first grade of Basic school. Length of a segment, perimeter and area of polygons. Comparing angles.

INFORMATION SHEET

Name of the university: J. Selye University					
Name of the faculty: Faculty of Education					
Code: KPP/UPVem/ MAT8/15		Name: Basics of Number Theory			
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present					
Number of credits: 3					
Recommended semester/trimester of study: 5.					
Level of study: II.					
Prerequisites:					
Conditions for passing the subject: During the semester two written clearance by 40 points will be held and at the end of the semester an oral exam will be held, where the student can get 40 points. To obtain grade A it is necessary to get altogether at least 109 points, for grade B at least 97 points, for grade C to get at least 85 points, for grade D to get at least 73 points and for grade E at least 61 points. Credits will not be awarded to the student who obtained less than 20 points in any written clearance or who obtained less than 21 points in the oral exam.					
Results of education: The student acquires theoretical knowledge of the numeric field, the structure of sets, basic geometrical shapes and their properties. He understands basic arithmetic terms in accordance with the curriculum of the subject. He analysis and interprets learned information. He can practically use theoretical knowledge in solving mathematical problems. The student acquires the skill and ability to apply basic mathematical knowledge in creation of teaching materials.					
Brief syllabus: Divisibility of integers, greatest common divisor, least common multiple. Euclidean algorithm. Prime numbers, prime factorization. Congruence. Diophantine equation. Number System.					
Literature: Šalát a kol.: Algebra a teoretická aritmetika 2, Bratislava, Alfa 1986 Znáň, Š: Teória čísel, Vydavateľstvo Technickej a Ekonomickej Literatúry, Bratislava 1986 László, B. - Tóth, J.: Bevezetés a számelméletbe, Liliium Aurum, 1999 Erdős, P. - Surányi, J.: Válogatott fejezetek a számelméletből, Polygon, Szeged, 1996

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ MAT9/15	Name: Logical Thinking Development Methods
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 2	
Recommended semester/trimester of study: 4.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: For the successful passing the course it is necessary to complete the continuous written test during the semester and at the end of the semester a final written test. Maximum points of both tests is 50 points. To obtain the grade A it is necessary to get at least 91 points, for grade B to get at least 81 points, for grade C to score at least 71 points, for grade D to get at least 61 points and for grade E at least 51 points. Credits will not be awarded to the student who obtained less than 25 points in any written clearance.	
Results of education: The student learns the basic principles of thinking, the basic principles of classification and arrangement to solve problems, can apply basic principles of mathematical logic in problem solving. The student learns the concept of function, sequence and recognize special types of sequences	
Brief syllabus: Basic principles of mathematical logic and the set theory, "Pigeonhole" principle. The concept of function, function as assignment and as a dependency. Definition, basic concepts. Methods to determine function: formula, tables, graph in a coordinate system. Methods of functional thinking development. Sequence. Sequence in the elementary mathematics. Arithmetic and geometric sequence, the sum of an arithmetic sequence. The Fibonacci sequence. Linear patterns - repetition and emulation. Identification and creating patterns. The patterns in the plane and in space. Algorithms as a sequence of commands. Methods of arrangement and classification.

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ MJL6/15	Name: Základy syntaxe maďarského jazyka
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 3	
Recommended semester/trimester of study: 2.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: Students must pass a written verification (analysis of sentences) at the end of the term for max. 40 points and in examination period an oral exam for max. 60 points. The final assessment of the subject: Evaluation A: 100-91 points, B: 90-89 points C: 80-79 points D: 70-69 points, E: 59-50 points FX: less than 50 points.	
Results of education: A student completing the course will expand his knowledge of simple sentence. Obtains theoretical and practical knowledge and skills in the area of analysing and making sentences. The aim of the course is the practical application of knowledge in teaching process of first grade of primary school.	
Brief syllabus: - Basic questions of Hungarian syntax - Assessment, structure, modality and logical quality of phrases - The term of syntagm and its types - Main clauses - Problems of subject and methods of its expression - Correspondence of predicate with the agent - Structure of adverbs - Double and compound adverbs - Modifiers and their expression - Coordination and subordination of phrases

Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ MJL7/15	Name: Hungarian language and literature methodology
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 3	
Recommended semester/trimester of study: 5.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: Students must hand in a report during the term for max. 40 points and in examination period an oral exam for max. 60 points. The final assessment of the subject: Evaluation A: 100-91 points, B: 90-89 points C: 80-79 points D: 70-69 points, E: 59-50 points FX: less than 50 points.	
Results of education: A student completing the course will get theoretical knowledge of didactics of Hungarian language at the primary level of education and practical skills in this area.	
Brief syllabus: The course is focused on the acquisition of theoretical and practical components of mother tongue teaching. In addition to the traditional methods and procedures dealing with the latest effective methods of teaching first (native) language. The course deals with the problems of teaching how to write a composition at the different age groups. The aim of the course is the practical application of knowledge for each level of teaching.

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ PGK/15	Name: The basics of pedagogical research
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 3	
Recommended semester/trimester of study: 5.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: The ratio of ongoing and final evaluation is 50/50. Based on communication in standard social and educational situations, students can gain 50 points. Students have to hand in a reflection on a communication topic, for which they can get 50 points. The successful completion of this course is conditioned by obtaining at least 50% of the maximum possible points or grades of the subject. Assessment is based on the following scale: A – 90 -100%, B – 80 -89%, C – 70 -79%, D – 60 - 69%, E – 50 -59%.	
Results of education: During this course, a successful student will become familiar with the theoretical background and practical skills of communication in social intercourses, especially in the process of education. Throughout the activities, the student will learn the verbal and non-verbal elements of communication both in a monologue and dialogues. The student will learn how to cope with the communication of teaching in standard situations (e.g. welcoming a new student, praising students, speaking to the parents, etc.). The student will be able to use the elements of non-verbal communication and the paralinguistic aspects of communication mainly in school situations. The student will be able to analyse the lesson from the point of view of educational communication and will become proficient at the practical analysis of the communication structures in the protocol of the lesson.	
Brief syllabus: Introduction to communication. Communication, social communication. Defining basic terminology. Man and communication. The communication skills of an individual. Verbal communication. Words and their meanings. Paralinguistic aspects of speech. Practising speeches. Non-verbal communication. Expressive means of nonverbal communication. Types of nonverbal communication: facial expressions, looks, proxemics, gestures, haptics, postures, kinesis, appearance, olphactory and the environment. Specific abilities of personality in the process of communication. Empathy, assertiveness. Empathic and assertive behaviour. Their importance in interpersonal relationships. Educational communication. The participants of educational communication. Educational aims and educational communication. The rules of educational communication. Organizational forms and methods of teaching in terms of communication options. Mass teaching, group teaching, individualized teaching. Spatial distribution of participants. Verbal communication in the education process. Monological and dialogical forms of communication.	

Conversation in the education process. Questions about teaching. The function of questions, assignments, exercises in the development of all cognitive functions. Creating divergent tasks and exercises. Non-verbal communication in the classroom. Non-verbal signals and attitudes of participants in the process of education. Means of expression. The influence of the environment on communication. Personality and other factors. Persuasion - persuasion as interpersonal influence. Signs and modes of intervention (detection, suggestion, exemplification exercise). Barriers in communication. Social aspects of educational communication. Factors influencing attitudes to students, the consequences of the teacher's attitudes towards students.

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ PPX7/15	Name: Pedagogical practice
Types, range and methods of educational activities: Form of study: Seminar / Practical Recommended extent of course (in hours): Per week: For the study period: 5s / 60s Methods of study: present	
Number of credits: 5	
Recommended semester/trimester of study: 6.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: The conditions for the graduation are set by the directive released by the Dean of the Pedagogical Faculty of the Selye János University: Principles of the realization of the pedagogical practice on the Pedagogical Faculty of the Selye János University. The student has to follow the relevant part of this document related to the pedagogical practice 7. He also has to submit a protocol of completion of the pedagogical practice 7, which has to be filled in accurately and in two languages and also create a portfolio according to a structure that was previously discussed and created.	
Results of education: The graduate of the subject is competent to elaborate a written preparation material that has to be didactically correct (including all of its parts) in order to lead a lesson on the first stage of the primary school, including elements of creativity, independence, individualization and alternativity within the methodic that were used. He is able to discuss his own written preparation material with his trainer (teacher) for the primary education in a professional way. Is able to accordingly prepare the conditions for the realization and realize and evaluate the particular teaching lesson on the first stage of the primary school. He is able to document the results and describe professionally the reflection and self-reflection in connection with the planned, prepared, realized and evaluated teaching lesson on the first stage of the primary school. Is able to orient oneself in the documentation of the primary school, to create a list of the documentation that he has previously studied. He is able to prepare a portfolio from the outputs with all of its parts according to the criteria that were previously discussed and set with the Head of the pedagogical practice using independence and alternativity, by successful and professional usage of the methodic according to the individual conception in a way, that it is projected in the current trend of the didactics for the primary education.	
Brief syllabus: didactic principles within the elaboration of the written preparation materials (including all of its parts), discussion with the trainer (teacher) for the primary education, - preparation of the conditions for a lesson on the primary school to be held, including a usage of innovative strategies using the relevant sources for teaching on the primary schools, - evaluation of the lessons on the first stage of the primary school by means of the planned and set methods and criteria for evaluation from his own view and from the view of the pupils (including elements of self-reflection), -	

professional analysis with the trainer (teacher) for primary education – documentation, evaluation of the preparation material and its usage as well as documentation and evaluation of the rest of the lesson, - preparation of the portfolio from the outputs including all of its parts according to the criteria that were previously set with the Head of the pedagogical practice using independence and alternativity where he understood and successfully applied the methodic in a most professional way.

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ PRI/15	Name: Theory and Practice of Prim Modular Training
Types, range and methods of educational activities: Form of study: Lecture Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 3	
Recommended semester/trimester of study: 1.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: During the semester students make a presentation on a given topic. 50 points can be obtained for the presentation. During the exam period, there is a written test based on the content of the course, for 50 points. The successful completion of the course is conditioned by obtaining at least 50% of the maximum points of the course. Assessment is based on the following scale: A – 90 -100%, B – 80 -89%, C – 70 -79%, D – 60 - 69%, E – 50 -59%.	
Results of education: The student will be able to navigate in the binding documents that determine the general objectives and key competencies of education, which also set the direction of education. The student will be able to list the components of the didactics of primary education in a consolidated system, according to the definition and classification of the related legislation and documents (the law on education and training, public education programme, etc.). The student will be able to implement cross-cutting issues as an integral part of the educational content of the field of education and suitable subjects. The student will be able to prepare thematic educational plans for individual subjects.	
Brief syllabus: The law on education, its structure. The national education programme and its content. The framework curriculum of primary education, educational areas, cross-cutting themes, competences etc. The national education programmes of individual subjects, their content structuring, content and performance standards. Thematic educational plans.

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ SJL6/15	Name: Elementary writing and reading in Slovak language
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 3	
Recommended semester/trimester of study: 3.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: During the semester: Writing a seminary work – an interpretation and methodical analysis of a text from a school-book for schools with Hungarian teaching language - 50 points. Written exam of 50 points from the theory of the subject. For passing the subject, the student must reach 50% of the possible points. Evaluation A is at 90-100%, B at 80-89%, C at 70-79%, D at 60-69%, E at 50-59% of the total sum of points.	
Results of education: Student will be informed of the basic theoretical and practical knowledge and skills, which are needed for teaching Slovak language at the 1-4 classes of primary schools with Hungarian teaching language. The methodical analysis and interpretation work with schoolbooks makes students able to work at the Slovak lessons of the minority schools.	
Brief syllabus: Didactics of the Slovak language. Slovak language as a subject at 1-4 classes of the primary school. Place, aims, tasks and conception of teaching the Slovak language in schools with Hungarian teaching language. Communicative teaching of the Slovak language. Methods of teaching of Slovak language and its organisation principals. Structure of the lessons. Didactic material and techniques. Contrastive teaching of phonology, morphology, lexicology and syntax. Teaching of communication and composition. Phases, methods of composition.

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ TVA6/15	Name: Health and movement, outdoor schools
Types, range and methods of educational activities: Form of study: Practical Recommended extent of course (in hours): Per week: For the study period: 40s Methods of study: present	
Number of credits: 2	
Recommended semester/trimester of study: 3.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: At this semester there will be a written review of the subject for 50 points and students can obtain another 50 points by handling in some tasks (running some motion games, creating a project with the theme : exercises in the countryside , passing hiking trails , orientation in the nature , knowledge of the standards and the curriculum ,” protection of human´s and the nature”). In condition of completion the course students must achieve at least 50 points , that means 50 % of the total. To achieve A is required to get 90-100 % ; the evaluation of B 80-89 % ; the evaluation of C 70-79 % ; the evaluation of D and 60-69 % the evaluation of E 50-59 % of the total marks.	
Results of education: The aim of the course is to provide basic knowledge of the theory and methodology of organizing the " forest and nature school " , " protection of human´s and the nature " . Expertise and regulate the organization of the individual activities. To know the bases of preparing some exercises and sport games in the nature.	
Brief syllabus: The importance of tourism and the "protection of human´s and the nature". The development of physical performance, physical fitness and strenghten our health. Basics of hiking and locomotiv exercises in the nature. Orientation in the nature by hiking signs and maps. Moving around in the nature (during the day and night). Exercises and physical outdoor games. Learn about the historical and cultural monuments, -protected areas - nature protection. Learn about the surrounding fauna and flora. ISCED1. OČAP- solving special situations - civil protection, health training and exercises in the nature. To get some knowledge about organization and forms of teaching in OCAP. ISCED1 – physical education - TC activities in the nature, seasonal and physical activities - hiking. Tourism and exercises in the summer – basic knowledge about the importance of tourism, it´s types and methods, and hiking. Learn about the importance of the physical activities in the nature, to have positive attitude to the environment and to the activities in different natural environment. The importance of the environmental protection.

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ TVZ/15	Name: Education technology
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 3	
Recommended semester/trimester of study: 3.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: The condition for passing the subject is accomplishing a seminar work (50 points) and creating teaching aids for any lesson (50 points). The subject has a pass score of 50 per cent.	
Results of education: The main aim of the subject is to obtain knowledge and practical skills necessary for incorporating audiovisual and modern multimedia presentation system in education.	
Brief syllabus: 1. Incorporating ICT in teacher training and education process. 2. Didactic technology as a subcategory of the education technology. Education strategies. 3. Education resources. The principle of clarity and efficiency of teaching aids in education. 4. The classification of teaching aids. The category of didactic technology. 5. The use of audio teaching aids in education – practicing the audio technique and preparing audio aids. 6. The use of static projection in education – practicing the projection equipment, preparing the overheads, recording a diaphonic program according to a simple scenario. 7. The use of television technology as well as video systems in education – practicing video techniques, recording cutting according to a simple scenario. 8. The developmental aspects of incorporating computers in education – practicing the IT technology, preparing worksheets, tests, and presentations. 9. Interactive whiteboards (types, specific features, reconciliation, technical competences) 10. Interactive whiteboards in the education process: choosing the course topics, types of interactive tasks and cross-subject relations.

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ VVA4/15	Name: Teaching visual arts in practice for primary school
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: For the study period: 10s Methods of study: present	
Number of credits: 2	
Recommended semester/trimester of study: 2.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: Undergraduates can gain a maximum of 100 points by completing this project. To fulfill the minimum conditions of this subject 50 points are required, i.e. 50% of the peak output is necessary. A (90-100%), B (80-89%)-os, a C (70-79%), D (60-69%), E(50-59%).	
Results of education: Undergraduates will know the characteristics of a child's visual presentation and the unfolding opportunities and conditions. Undergraduates will know the possibilities of visual activities applied in primary education. Undergraduates will know the genre, the technical specifics of activities, are experienced in the practical construction and in the creative solving processes. Undergraduates are able to perform visual tasks of primary education, know the stages of design and document the steps of implementation and inspirations in graphic form.	
Brief syllabus: A picture from a picture, image analysis and transposition practices. Non-figurative compositional practices. Representation of simple geometric and natural forms. Imitative practices. Visual analysis, communication aspects: reduction and selection. Analyzing and intensification of visual problems in practice. Light and shadow, form, tone, color, color theory. Expression and representation practices. Sculpture practices and modelling potentials with clay. Object and shape practices. Charting the practical application of conventions in 2D and 3D Possible modifications of paper, textile, natural and traditional materials. Personal expression exercises. Object-form-function relationships, and the matter of decorative objects. Composing shapes, colors, materials and a variety of non-traditional techniques.

INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KPP/UPVem/ ŠKM/15	Name: Education management
Types, range and methods of educational activities: Form of study: Lecture / Seminar Recommended extent of course (in hours): Per week: For the study period: 5s / 5s Methods of study: present	
Number of credits: 2	
Recommended semester/trimester of study: 4.	
Level of study: II.	
Prerequisites:	
Conditions for passing the subject: There is a final test for 100 points. During the semester, students can be given several tasks from the lecturer. One particular task can be worth 5 points. During the whole semester, the student can collect maximum 120 points for the completion of such tasks. If the student obtains enough points for the completed tasks, equivalent to the final assessment, and the student accepts it, the student does not need to take the final test. If the student decides to take the test, the final grade will be made by the points gained for the completed task plus the points reached in the final test. The successful completion of this course is conditioned by obtaining at least 50% of the maximum possible points or grades of the subject. Assessment is based on the following scale: A – 90 -100%, B – 80 -89%, C – 70 -79%, D – 60 - 69%, E – 50 -59%.	
Results of education: The student will have knowledge of the specifics of school management in the field of comprehensive management, quality management, management style, school marketing, school climate and culture. The student will be able to apply knowledge of school management in the application of educational programmes and regarding the management of education in the Slovak Republic in relation to legislation.	
Brief syllabus: School functions. The essence of school management in a democratic society. The adaptability of the school management system. The role and tasks of state administration in education in school management. The scope of local governments, school authorities and other bodies in school management and schools. The nature and content of management. Concepts and theories of management. School management. School management models, their specific features. Management functions - basic and general management functions. The organizational structure of schools. Comprehensive school management in applying the school educational programme. Educational programmes in terms of school management. Managing the development and implementation of the school educational programme. Internal school standards as regulations of optimal functioning. Management style. The personality and communication skills of the school manager. School marketing from the perspective of the needs of the contemporary school. School climate and culture in terms of the formulation and implementation of the school educational programme.
