## INFORMATION SHEET

<b>Name of the university:</b> J. Selye University	
<b>Name of the faculty:</b> Faculty of Education	
<b>Code:</b> KPD/PEDdb/ IKT/18	<b>Name:</b> Mediocre Communication Technologies in Education
<b>Types, range and methods of educational activities:</b> <b>Form of study:</b> Seminar <b>Recommended extent of course ( in hours ):</b> <b>Per week: 2 For the study period: 26</b> <b>Methods of study:</b> present	
<b>Number of credits:</b> 4	
<b>Recommended semester/trimester of study:</b> 4.	
<b>Level of study:</b> I.	
<b>Prerequisites:</b>	
<b>Conditions for passing the subject:</b> During the semester, students study original information resources on media and communication technologies, education technology and information and communication technologies. They work independently on their semestral work and teaching resources throughout the semester. At the beginning of the semester, they have clearly defined assignments and method of classification. Students present their semestral work and the created teaching aid that they can create for any lesson in front of their classmates, after which a discussion is also included. The activity of students at seminars during the semester is also monitored. Active students receive a bonus that is added to the overall student rating. The course is completed by graded credit. Classification is determined based on the quality of the semester work and the creation of a teaching aid for any lesson and its level of presentation, plus bonuses earned per semester. Students must earn at least a 50% credit rating for the subject. At least 90%, B at least 80%, C at least 70%, D at least 60%, E at least 50% are required to obtain classification A. The student has the opportunity to improve his / her classification by completing or revising his / her semester work.	
<b>Results of education:</b> The main result of the course is for students to acquire knowledge and practical skills and abilities to apply and use classical audiovisual and modern multimedia presentation systems in the classroom.	
<b>Brief syllabus:</b> Implementing ICT in teacher training and in the teaching process. Didactic technology, educational strategies. Basics of didactic materials creation Didactic means. Principle of illustration and effectiveness of teaching aids in teaching. Classification of teaching aids. Categories of didactic technology. Internet and its possibilities in mass and personal communication, effects of media on man PowerPoint environment options Simple animations, running ready-made applications Working with sound, sequence, timing Data processing Management of didactic presentation Basics of working environment

## INFORMATION SHEET

<b>Name of the university:</b> J. Selye University	
<b>Name of the faculty:</b> Faculty of Education	
<b>Code:</b> KPD/PEDdb/ TPK/18	<b>Name:</b> Pedagogical Communication
<b>Types, range and methods of educational activities:</b> <b>Form of study:</b> Seminar <b>Recommended extent of course ( in hours ):</b> <b>Per week: 2 For the study period: 26</b> <b>Methods of study:</b> present	
<b>Number of credits:</b> 4	
<b>Recommended semester/trimester of study:</b> 2.	
<b>Level of study:</b> I.	
<b>Prerequisites:</b>	
<b>Conditions for passing the subject:</b> The ratio of interim and final evaluation is 50/50. Student can master 50b for managing communication in standard social and learning situations. The student passes the reflection written on the subject of communication for which he / she can get 50b. The condition of successful completion of the subject is to obtain at least 50% of the maximum possible evaluation of the subject. Rating is granted on a scale: A - 90-100%, B - 80-89%, C - 70-79%, D - 60 - 69%, E - 50-59%	
<b>Results of education:</b> In this course the student acquires the theoretical knowledge and practical skills to communicate in social communication and especially in the education and learning process. Within the exercises the student acquires verbal and nonverbal elements of social communication, both in the monologue and in the dialogue. In particular, they master the management of teaching in standard situations. He will be able to use the elements of non-verbal communication and paralingvistic aspects of communication, particularly in school situations.	
<b>Brief syllabus:</b> Introduction to communication. Communication, social communication. Definition of basic terms. Man and communication. Communication skills of an individual. Verbal communication. The word and its meaning. Paralingual aspects of speech. Practice of verbal expressions. Non-verbal communication. Expressions of non-verbal communication. Types of non-verbal communication: mimics, views, proxemics, gestures, haptics, posturika, kinetics, looks, olfacations and the environment. Specific personality skills in the communication process. Empathy, assertiveness. Empathic and assertive behavior. Their significance in interpersonal relations. Pedagogical Communication. Participants in pedagogical communication. Rules of pedagogical communication. Spatial distribution of participants. Verbal communication in the educational process. Monologic and dialogical forms of communication. Interview in the educational process. Function of questions, tasks, exercises in developing all cognitive functions. Creating divergent tasks and exercises. Nonverbal signals and attitudes of participants in the process of education and training. Means of expression. Impact of the environment on communication. Personality and other influences. Persuasion - Convincing as an interpersonal influence. Characters and ways of influencing (clarification, suggestion, exemplification, exercise). Barriers in communication. Social aspects of pedagogical communication

## INFORMATION SHEET

<b>Name of the university:</b> J. Selye University	
<b>Name of the faculty:</b> Faculty of Education	
<b>Code:</b> KPD/PEDdb/ UAP/18	<b>Name:</b> Introduction to Academic Writing
<b>Types, range and methods of educational activities:</b> <b>Form of study:</b> Seminar <b>Recommended extent of course ( in hours ):</b> <b>Per week: 2 For the study period: 26</b> <b>Methods of study:</b> present	
<b>Number of credits:</b> 4	
<b>Recommended semester/trimester of study:</b> 1.	
<b>Level of study:</b> I.	
<b>Prerequisites:</b>	
<b>Conditions for passing the subject:</b> In the course of the semester, students study original sources of information about pedagogical research, pedagogical experiments, and the processing and interpretation of results. They independently work on their research projects throughout the semester. At the beginning of the semester they have clearly defined assignments and a classification method. Students present their semester work to classmates, which includes discussions. Students' activity at seminars during the semester is also monitored. Active students get a certain bonus that is added to the overall student rating. The subject is completed with a classified credit. Classification is based on the quality of the semester work and its presentation level, with the added bonus for the semester. Students must earn a minimum of 50% credit for the subject. To obtain Class A, at least 90%, B at least 80%, C at least 70%, D at least 60%, E at least 50%. The student has the opportunity to improve his / her classification by completing or refining his / her semester work.	
<b>Results of education:</b> The aim of the subject is to familiarize students with science as an organic component of human culture institutional forms, the most important methods, forms and outputs of scientific work, scientific ethics and prepare them for independent planning and realization of pedagogical research in practice and also to teach them to present the results of their own research activities in the professional community.	
<b>Brief syllabus:</b> Science as part of human culture, scientists and scientists; <ul style="list-style-type: none"> <li>• Institutional provision and management of scientific work;</li> <li>• The most important methods of scientific work;</li> <li>• The most important forms of scientific work;</li> <li>• Scientific and technical information;</li> <li>• Ethics of scientific work;</li> <li>• Preparation and realization of independent research activities of the educator in practice;</li> <li>• Processing, interpreting and presenting the results of independent scientific work;</li> <li>• Specifics of the work of the community of scientists, the evaluation of scientific work and qualifications.</li> </ul>
