INFORMATION SHEET

Name of the university: J. Selye University	
Name of the faculty: Faculty of Education	
Code: KMF/ AMS20db/AJ/15	Name: Reading American Literary Texts of the 20th Century
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: 1 For the study period: 13 Methods of study: present	
Number of credits: 2	
Recommended semester/trimester of study: 6.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject: Two tests will be written during the semester, each with a score of 50 points. At least 90 points are required for grade A, 80 points for B, 70 points for C, 60 points for D, and a minimum of 50 points for E. Students who score under 50 points will not obtain a credit for this course.	
Results of education: After successfully completing this course students will be able to analyse and interpret the most important pieces of 20th century American literature and to apply the techniques and methods of the main literary schools.	
Brief syllabus: The course will focus on the intensive analysis of the most important pieces of 20th century American literature. The main goal of the subject is to provide students with an access to the in-depth analysis of a given literary work. During the semester emphasis will be on a kind of reading which is targeted not at the length of texts but at the intensive analysis of texts. The most important aim is to enable students to formulate and express their own thoughts, as well as to discover as many interpretations of a text as possible. During the semester students will apply the methods and techniques of the contemporary, active schools (such as hermeneutics, deconstruction, feminist interpretation, etc.).

Code: KMF/ APISdb/AJ/15	Name: Academic Writing
Types, range and methods of educational activities: Form of study: Seminar Recommended extent of course (in hours): Per week: 2 For the study period: 26 Methods of study: present	
Number of credits: 2	
Recommended semester/trimester of study: 4.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject: There will be one test written during the semester, in which students can get 50 points. Students will be required to submit a written report at the end of the semester, for which they can obtain another 50 points. At least 90 points are required for grade A, 80 points for B, 70 points for C, 60 points for D, and a minimum of 50 points for E. Students who score under 50 points will not obtain a credit for this course.	
Results of education: Having accomplished this course, the student will become familiar with and be able to use the basic writing techniques of academic writing (e.g. that of thesis writing). The students will learn the skills of writing abstracts, selecting its keywords, and they will also be able to quote and paraphrase various sources.	
Brief syllabus: Each session of this course will concentrate on a certain aspect of the writing process and on organizing the different parts of texts. Students will read and evaluate each other's compositions. They will be required to submit a chapter of their thesis. The course will deal with writing abstracts, quoting and paraphrasing.

Number of credits: 2	
Recommended semester/trimester of study: 5.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject: During the term the student should work out the hypotheses and the structure of the thesis (for 20 points); should provide review of the literature (at least 10 sources) (for 10 points), and should also write and submit 70% of the thesis (for 70 points). At least 90 points are required for grade A, 80 points for B, 70 points for C, 60 points for D, and a minimum of 50 points for E. Students who score under 50 points will not obtain a credit for this course.	
Results of education: Upon successful completion of this course, the student will be able to interpret the abstract of his/her BA thesis, to quote properly and refer to literary sources, to write 70% of his/her thesis, as well as to introduce it in the form of a short presentation.	
Brief syllabus: The main goal of the subject is to help the student to write his/her BA thesis. The topic and title of the thesis is already decided at the end of the fourth term. During the term the consultant provides general literary sources for thesis writing, as well as for the topic selected by student. The student has to do extensive reading in order to extend the sources by a number of other ones collected from the library and the Internet. Based on the sources the student provides the main structure of the thesis, as well as writes the thesis.

Code: KBIO/Bdb/ BOT1/15	Name: Botany I
Types, range and methods of educational activities: Form of study: Lecture / Practical Recommended extent of course (in hours): Per week: 1 / 1 For the study period: 13 / 13 Methods of study: present	
Number of credits: 3	
Recommended semester/trimester of study: 1.	
Level of study: I.	
Prerequisites:	
Conditions for passing the subject: 2 exams during the semester each 25 points. A minimum of 25 points must be acquired during the semester to get accepted to the final exam. Final exam 50 points. Evaluation: A – 100-90%, B – 89-80%, C – 79-70%, D – 69-60%, E – 59-50%.	
Results of education: By completing this course the student will gain knowledge about the anatomy and morphology of the vascular plant. Students can use this to the determination of plants	
Brief syllabus: The definition of basic concepts. A brief history of botany. Organs of the plant, characterization and general morphological characteristics, germination of the vascular plant. The root: the primary and secondary structure. The root of monocots and dicots. Modified roots. Stem: tissues, primary and secondary structure. Monocots and dicots stem structure. Modified stems. Morphology - importance, phylogeny, ontogeny, Theory of Teloma. The leaf: Structure and tissues. The grasses, C4 plants and conifers metabolisers leaves. Morphology – anatomy, veins of the leaf blade morphology, simple and compound leaves, leaf development, leaf angles, filotaxis. Formula flowers and flower chart. Flowers: Introduction to plant embryology. The stamens, microsporogenesis, pollen formation and structure. The production, eise, the structure of the embryo sac. Morphology - simple and complex inflorescence, the flower - structure, floral landscapes, stamens, growing. Fruits: The fertilization. The embryo formation and structure. Pollination, fertilization, seed and maturity of harvest, crop types, and spread the seeds of the fruit. Vegetative and sexual reproduction.

Level of study: I.	
Prerequisites:	
Conditions for passing the subject: For the successful accomplishment of this course, the students should collect 40 points during the semester and 60 points from the mid-term writing test. To enter the final exam, it is necessary to obtain 50% (i.e. minimum 20 points. Grading system: grade A (90–100%), grade B (80–89%), grade C (70–79%), grade D (60–69%), grade E (50–59%), and grade F (49% and below).	
Results of education: By successfully finishing this course, students will learn the basic principles of inorganic, organic and organometallic chemistry. In the future, they will be able to apply this basic knowledge for solving real practical problems.	
Brief syllabus: 1. Introduction to chemistry. Basic principles of chemistry. The matter, the pure matter. Mass, weight, energy and the elements. Atomic structure. Compounds. The law of conservation of energy and matter. The chemical bond. 2. The empirical laws. Atoms, compounds, the mole, the molar mass, chemical formulas and equations. 3. Periodic table of the elements 4. Solutions. The units of concentrations, calculations. 5. State of matter. 6. Diffusion and osmosis. Strong and weak electrolytes, ionization. 7. Theory of acids and bases. Titration. 8. Chemical reactions. Types of reactions, electropotentials, galvanic cells, electrolysis. 9. The rules of thermochemistry. Heat of reactions, reaction rates, catalysts. 10. Chemical equilibriums, equilibrium constants.

Students who score under 50 points will not obtain a credit for this course.	
Results of education: Upon successful completion of this course, the student will be able to interpret and analyze the 20th century literary works, as well as to use the techniques and methods employed by main literary schools.	
Brief syllabus: The seminar focuses on the intensive analysis of the 20th century literary works. During classes various British and American novels, dramas, short stories and poems are analyzed. The main goal of the subject is to provide a chance for students to deepen their analysis of given literary works. During classes the students will get acquainted with the method of deep reading which puts emphasis on intensive work on the literary pieces and not on the length of the texts they have to read. The seminar sheds light on the techniques used by given literary schools, as well as gives a great chance to practice them

At least 90 points are required for grade A, 80 points for B, 70 points for C, 60 points for D, and a minimum of 50 points for E.	
Results of education: Students, having successfully accomplished this course, will be able to critically evaluate, assess and solve the most frequent problems in modern language teaching. They will be able to apply the techniques required for transferring foreign language knowledge and for developing language competencies. They will be able to construct a methodological model for developing all the language skills and will know how to integrate them in the process of language teaching.	
Brief syllabus: The course will start with an introduction to the main models of foreign language teaching and will continue with a detailed analysis of the individual phases involved in these models. Students will become acquainted with various methods with which they can teach new grammatical structures, and they will evaluate and test the techniques with which they can expand the learners' vocabulary. The seminar will also discuss methods with which teachers can effectively ask questions and with which reading and listening skills can be effectively developed. Students will learn different assessment strategies, especially those for oral and written performances.
